SNOWBOND®

Snowbond® represents the next generation of aluminium composite panel. It has a fire-rated foamed PVC core bonded between two aluminium skin making it ideal for lightweight commercial signage projects. **Snowbond®**'s ultra-smooth, bright white, digitally primed surface ensures brilliant ink bonding and colour output across UV, latex and screen-printing platforms. The easy-peel protective film ensures smoother and quicker handling on every project, while the panel's excellent rigidity and workability make it ideal for CNC routing, folding and 3D fabrication. It is available in 1mm and 3mm gauge sheets and also comes with a 10 year warranty.

KEY FEATURES

- 10 year warranty
