SIGNBOND® SOLID ALUMINIUM

SignbonD® Solid Aluminium panels are high-quality, rigid aluminium sheets designed for strength, durability, and a premium finish. Manufactured from solid aluminium rather than composite material, they offer excellent weather resistance, corrosion protection and long-term performance in demanding environments. **SignbonD® Solid Aluminium** is also fire rated to AS 1530.1-1994.

KEY FEATURES

- Fired rated AS 1530.1-1994
- Long-lasting durability
- Rigid
- Lightweight
- Easy handling & installation

PRODUCT APPLICATIONS
